Resolution

As the faculty of the Women's and Gender Studies Program at the College of Charleston, we insist that the principle of academic freedom be preserved. The integrity of our teaching demands nothing less.

We also insist that homophobia, transphobia, heterosexism, and hostility to our students always be challenged and condemned. No person, no matter how wealthy or influential, should remain unchallenged when that person demeans the lives or identities of our students, faculty, or staff. We refuse to cooperate in the marginalization of anyone who doesn't perform heterosexuality to the satisfaction of South Carolina politicians.
