C. RATIONALE AND EXPLANATION. Please describe your request and explain why you are making it.

In a separate proposal, we are introducing a new Introduction to Astrophysics course (ASTR 231) as a sophomore-level bridge between our Introductory Physics courses and our upper-level astrophysics electives. Here we propose that this new course become the pre-requisite for ASTR 311.

D. IMPACT ON EXISTING PROGRAMS AND COURSES. Please briefly describe the impact of your request on your own programs and courses as well other programs and courses. If another program requires the course, you must submit their written acknowledgement with this proposal. Also, the affected program must describe any change in the number of credit hours they require. Include a list of similar courses in other departments and explain any overlap.

This change will have very little effect on existing programs and courses. It is simply changing the prerequisite for an existing course.
E. EXISTING COURSE INFORMATION. If you are proposing a new course, just leave this blank. Otherwise, please fill out all fields.
