The meeting of the Committee of October 24, 1995, was called to order at 3:05 PM. The minutes of the meeting of September 26, 1995, were approved.

petitioned the Committee to have all or none of her hours transferred from Trident Technical College. Under the current cross-registration agreement, in certain circumstances grades and credits are accepted directly, while in other circumstances only credits transfer. said that she did not understand all of the ramifications of the policy at the time that she signed up for the various courses at TTC. If only one grade is accepted directly, the result is a lower GPA. The Committee also found the policy to be confusing, and accepted the petition in the form of making all of TTC hours transfer credit only.

has 85 hours at the College, and will have 111 hours. She petitioned that at that time she be allowed to take 12 hours at Arizona State. The petition was approved.

will have earned 84 hours at the College by the end of the current semester. She wants to take 12 hours at the University of New Orleans. The petition was approved, pending the approval of her department Chair.

petitioned to be allowed to use transfer courses in Physics from the University of Texas at Austin to fulfill her science general degree requirement. Bob Dukes feels that he does not have the authority to say that she has met the science requirement, because the text was a "lower-level" text than that used in our Physics 101-102, and the lab work at UTA seems to have been minimal. However, "philosophically" he feels that she has satisfied our requirement. The Committee approved the petition.

petitioned to be allowed to use PHIL 115 to satisfy both a general degree requirement (as part of the math/logic requirement) and a major requirement (in Philosophy). The Registrar's Office says that she cannot use the course to satisfy both requirements. The Committee decided that there is not any rule against using a course to satisfy both the math/logic requirement and a major requirement, and that in fact the petition was not necessary.

The Department of Spanish and Italian brought before the Committee a proposal that one-hour conversation courses be graded on a pass-fail system, now that that grade is available at the College. The Committee noted that the pass-fail option is at the discretion of the student, not that of the faculty member. Therefore, the Committee remanded the proposal to the Department for further study.

The meeting was adjourned at 4:25 PM.

Respectfully submitted,

Walter Pharr
