The agenda today consisted of three additions to the bulletin.
All three passed.
1. Incomplete:
p. 260 College Bulletin

The grade of I indicates that only a small part of the semester's work remains to be done, that the student is otherwise doing satisfactory work in the course, and that an extension of time is warranted to complete the course. The student is allowed sixty days from the end of the semester in which this grade is received to complete the work in the course. If the student does not complete the work within the sixty days, the I is automatically changed to an F.

2. Probation
p. 263 College Bulletin

All fifteen hours need not be taken in the immediately ensuing semester. Rather, the Dean of Undergraduate Studies will make a judgement about the student's case at the conclusion of the semester in which he or she completes the fifteenth hour. If, at the end of the semester in which he fifteenth hour is completed, the student's cumulative grade point ratio is not back in line with the standards above, the student will normally be withdrawn from the College for academic deficiency.

3. Withdraw:
p. 260 College Bulletin

Students who withdraw from all courses in which they are enrolled during a given semester must officially withdraw from the College unless there is verifiable evidence that withdrawal from the course is involuntary. If this is the case, students will be granted an involuntary withdrawal from the Dean's office and will be allowed to pre-register for the following semester.
