Old Business

1) Approve Minutes

2) Curriculog Training (Cherry)

3) Major GPA policy passed at the Faculty Senate meeting on January 17, 2017

Option 3: list courses (& exclusions) under the Academic Year Catalogue (amended in red):

Complete all of the requirements for at least one major with a minimum grade point average (GPA) of 2.000 in ~~all~~ those major courses identified by the department or program. See specific major requirements in the Programs of Study section of the catalog for a list of major GPA courses and

Agenda: January 27, 2017

exclusions. Some programs require a major GPA greater than a 2.000; see specific major requirements in the “Schools and Colleges” section of the catalog. Note: Any course approved through exception management or identified by the department in the special topics selection process that will be used as a substitute for a course within a program of study’s exclusion list will not be calculated in the major GPA.

4) Pending FCC approval

BIOL 381 proposal reconsidered. FCC’s concerns about repeatability (new P/F wording does not allow P/F courses to be repeated) and SLOs (too vague) have been shared with Seth Pritchard and Christine Byrum. Once these issues have been addressed, we will reconsider the proposal in February.

5) Curriculum proposals results

a) Passed at the Faculty Senate meeting on December 6, 2017.

- i) Finance (Wang): Prerequisite changes to FINC 360 and REAL 360
- ii) Economics (Maldonado)
 - (1) Prerequisite changes to ECON 200 and 201
 - (2) Prerequisite changes to 300- and 400 level ECON courses
- iii) Mathematics (Mignone): Add MATH 455 to the Actuarial Studies track
- iv) Professional Studies (Gibbison): Public Health HMSM concentration changes
- v) Communication (Milner): Add new course to the COMM degree requirements

b) Passed at the Faculty Senate meeting on January 12, 2017.

Professional Studies (Gibbison): New Hospitality Operations Management program. This proposal was approved by the FCC in November 2016, but withdrawn from the Faculty Senate in November due to concerns raised within the School of Business.

c) New name for the “Real Estate” Major to “Commercial Real Estate Finance” announced. Brian McGee informed the Senate that the “Real Estate” major proposal (approved by the FCC and Faculty Senate) was submitted to the SAC and CHE under this name. The CHE approves of the program but does not approve of the name of the major because it does not sound academic enough. The provost and members of the finance faculty suggested a name change in late December to “Commercial Real Estate Finance.” It will continue the approval process with this new name.

New Business

6) Consideration of Curriculum Proposals

Reminder: approved proposals will be forwarded to the Senate on February 2, 2016
