SPEAKER'S COLUMN/NEWS SHORTS

--The annual President’s Retreat will be held in Myrtle Beach during fall break (October 15-17). Chairs of faculty committees, department chairs, and so forth will convene with key administrative personnel on Sunday the 15th, returning on the 16th. Administrative personnel will remain through the 17th. According to Dr. Lightsey, the topic will be growth at the College of Charleston.

--At some presumptive risk, I would like to pose a solution to the dispute between faculty and administration regarding the publication of the College Bulletin (annual vs. bi-annual). Attach a student fee of $5 annually for the Bulletin. Many schools sell Bulletins in student stores for $5 or more. That fee should cover the cost to College Relations of a staff person who jointly would coordinate updates of the Bulletin with the chair of the Faculty Curriculum and Academic Planning Committee. The current chair of that committee, George Pithering, is working on a computer program that would constantly update the Bulletin and have it available as “read only” in the new computer system, so that any department could call up any portion of the Bulletin and print any portion. That would serve nicely between printings.

--There is another suggestion about scheduling and pre-registration that might be tossed around. Twenty-five years ago, when I was an undergraduate, no student was permitted to pre-register unless half of the courses for which the student was signing up were scheduled during the afternoon hours. Naturally, that plan would ultimately fail to operate successfully during the drop/add period. However, for entering freshmen who would be signing up during the summer months, that type of scheduling restriction could be a viable alternative. I spent many hours in the terminal area this summer with students who were saying things like “I can’t get up at 8:00; I want all my classes from 9-12 on MWF or TTh.”

--The funniest query I heard most often at the terminal area this summer was, “Why are all the Astronomy Lab sections at night?”

--If you attended any of the Health/Dental Insurance meetings, you discovered that our “cost of living adjustments” were overrun by increases in premium and co-payments and by decreases in anticipated coverages. This is true even without knowledge of what the Blue Cross coverage will be for prescriptions. Blue Cross premiums—the monthly payroll deduction—will increase 23%; the deductible doubles for next year.

--Did you see the news reports that President Holderman has committed himself to providing 8% per year increases in faculty salaries to the year 2000? Or did I misread that report?

--Rumor or fact? The College is considering adding a new major and department of Folklore and Mythology.

Thanks to CR, SMH, TWP, MB, SB, and CCH for their assistance.
