2020-2021 Committee Members:
Raúl Carrillo – Hispanic Studies
Peter Calcagno – Economics
Maureen Hays – Sociology and Anthropology
Kristin Krantzman (Chair) – Chemistry and Biochemistry
Lee Lindner – Physics and Astronomy

The Post Tenure Review Committee completed their task of evaluating fourteen superior rating applications. We met four times during the months of February and March to discuss the submission by each candidate and make vote on a decision for a positive recommendation. Each meeting lasted approximately two hours and was spent reviewing three to four packets.

Overall, the committee members were impressed by the quality of the work done by the faculty. Most of the packets were well prepared and organized. The committee submitted a positive recommendation for almost all of the candidates.

I thank the committee members for all of the work that they did to make a thorough and fair review of each candidate. Faculty did an excellent job preparing for the meetings and approaching discussions with an open mind. The opinion of each faculty member was considered before we voted on our recommendation for the review. I thoroughly enjoyed working with the members of the committee.

Sincerely,

Kristin D. Krantzman
Chair, Post-Tenure Review Committee
Professor, Department of Chemistry and Biochemistry
