Needs Additional Work

- ANTH 101: Only 2 of 15 weeks devoted to race? Maybe race is addressed in other weeks but that is not clear. Writing Assignments, including WA 4, are not indicated in

calendar and there is no explanation of the assignment provided. (Not sure we need to worry about this.) May ask department chair to come in and discuss this more.

Moving into Spring, we may start looking at modifying or terminating existing courses. Gia discussed past committee reaching out to students to get feedback on Gen Ed. Dean Tim Johnson (LCWA) is working on this now. Gia will look through her notes to see if there are records of past listening sessions. Simon suggested looking at Senate reports for more info. Chris Korey (BIOL) and Chris Warnick (ENGL) longitudinal study of students, they may have data on GE.
